

Product	Chem. Description	Features and Benefits
<b>DEHYLUB® 4059</b>	Trimetylolpropane Complex Ester	Good thermal and oxidation stability. For high temperature chain oils. Improves rheology properties. Very low evaporation tendencies (Noack). Vk40: 100 mm <sup>2</sup> /s.
<b>DEHYLUB® 4071</b>	Trimetylolpropane Complex Ester	Good thermal and oxidation stability. Improves rheology properties. Soluble in mineral oils. Good lubricity. Vk40: 50 mm <sup>2</sup> /s.
<b>DEHYLUB® 4100</b>	Complex Ester	Good thermal, oxidative and hydrolytic stability. Rheology modifier in MWF concentrates and neat oils. Soluble in mineral oils. Good lubricifier. Vk40: 440 mm <sup>2</sup> /s.
